<http://www.nass.usda.gov/ar>

This report contains the results from the quarterly Milk Production Survey conducted during the first part of April 2004. A sample of Arkansas milk producers was surveyed to collect milk cow and production data as of April 1 which covers the January 1 through March 31, 2004 period. The annual data were compiled from the Milk Production Survey in January, April, July and October during the year, and the economic data were computed by the Economic Research Service, USDA. The data are also posted on our home page at the Internet address above, and more detailed national statistics at <http://www.usda.gov/nass/>. Thanks to all who responded to the questionnaire and telephone interview for the survey.

FIRST QUARTER MILK PRODUCTION DOWN 9 PERCENT

ARKANSAS milk production during the January-March 2004 quarter, was 87 million pounds, down 9 percent from the same period in 2003, but 9 percent above the previous October-December 2003 quarter.

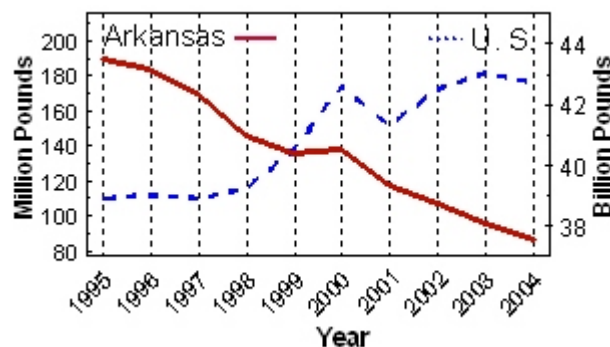

The average number of milk cows during the quarter was 27,000 head, 3,000 head less than the same period last year, and down 1,000 head from the previous quarter.
